

Tulpenkraxler

These socks are knitted with an increase on the frontside of the ankle and therefore a different heel.

The socks shouldn't be knitted too loosely. The pattern is very elastic, so that they fit from German size 37 (with 2mm needles) up to size 40/41, it just depends on how long you knit the foot.

The beginning of a round is on the side, not backward at these socks.

Material:

sockweight yarn, fitting needles

Pattern notes:

At the twist of two stitches, always knit the the stitch on top through the back loop.

Cuff:

When knitted the cuff you will see the first little tulips. Therefore cast on 64 stitches in the very elastic „Channel Island Cast on“. Just give in this term in the search of youtube. There is a little videoso showing this kind of cast on:

<http://www.youtube.com/watch?v=fPbJGGz8k8Q>

Close the round and knit the cuff after Chart A rounds 1-10.

Leg:

Knit the lacepattern from Chart A (rounds 11-20)
